A. Statement 1

B. Statement 3

C. Statement 2

D. Statement 4

Correct Answer: A, D

Reference: Book name: Dynamic & Modern Websites with PHP, Heading # 17.6 page # 254

Q.4 Which of the following commands displays text on the browser in PHP?

A. display

B. print

C. echo

D. get

Correct Answer: B, C

Reference: Book name: Dynamic & Modern Websites with PHP, Page no 10

Q.5 PHP variables must start with a _____.

A. Underscore sign

B. Dollar sign

C. Alpha-numeric character

D. Asterisk sign

Correct Answer: B

Reference: Book name: Dynamic & Modern Websites with PHP, Page #63

Q.6 Which of the following data types is used to hold references to external types in PHP?

Prepared By Abrar Ahmed

PRIME Sem3 'Web Application Development using PHP' Module End Exam

A. Resource	B. String
C. Reference	D. Pointer
Correct Answer: A	
Reference: Book name: Dynamic & Modern Websites with PHP, Heading 4.3.3 page # 40	

Q.7 Which of the following functions is used to declare constants in PHP?	
A. header()	B. static()
C. define()	D. const()
Correct Answer: C	
Reference: Book name: Dynamic & Modern Websites with PHP, Heading 4.4 page # 42	

Q.8 Which of the following type of variables declared within the functions retains its value even after a function terminates?	
A. Local	B. Environment
C. Global	D. Static
Correct Answer: D	
Reference: Book name: Dynamic & Modern Websites with PHP, Heading 4.5.3 page # 46	

Q.9 Which of the following operators is used to compare operands for equality as well as same data type in PHP ?	
A. ==	B. <=
C. ===	D. >=
Correct Answer: C	
Reference: Book name: Dynamic & Modern Websites with PHP, Heading 4.10 page # 51	

Q.10 Which of the following are valid string operators supported by PHP ? [Multiple Choice]	
A. .	B. .=
C. +	D. +=
Correct Answer: B, D	
Reference: Book name: Dynamic & Modern Websites with PHP, page # 56	

Q.11 Which of the following functions sorts the element values in descending alphabetic order in an array ?	
A. sort()	B. arsort()
C. rsort()	D. array_flip()
Correct Answer: C	
Reference: Book name: Dynamic & Modern Websites with PHP, Heading 13.12.2 page # 181	

Q.12 Which of the following variable scopes is not supported by PHP?	
A. Local	B. Static

Prepared By Abrar Ahmed

PRIME Sem3 'Web Application Development using PHP' Module End Exam

C. Global	D. Hidden
Correct Answer: D
